

ADITH BABU

AUTOMATION ANALYST

✉ adithbabu1221@gmail.com • ☎ +91-8157899544 • 🔗 [LinkedIn](#) • 📁 [Portfolio](#) • 🐙 [GitHub](#) • 📍 Kerala, India

PROFESSIONAL SUMMARY

Automation Analyst with 1.5+ years of hands-on experience designing and deploying production-grade automation solutions that have **reduced manual processing time by up to 99.9%** and improved operational efficiency by over 80%. Skilled in building **internal applications, automation bots, and data processing pipelines** using Python, Django, Selenium, and Microsoft SQL Server. Proven track record of managing the complete solution lifecycle — from requirements analysis and solution architecture through development, deployment, and continuous improvement — delivering measurable business value across cross-functional teams.

TECHNICAL SKILLS

Languages:	Python, JavaScript, SQL, HTML5, CSS3, Dart
Frameworks & Platforms:	Django, FastAPI, Next.js, Node.js, Flutter, Selenium WebDriver, Tailwind CSS
Database Systems:	Microsoft SQL Server, PostgreSQL, MySQL, SQLite
APIs & Data Formats:	RESTful API Design & Integration, JSON, Third-Party API Integration
Automation & RPA:	Power Automate, Selenium, Workflow Engineering, Business Process Automation, System Integration
DevOps & Infrastructure:	Git, GitHub, Waitress, Virtual Machine Administration, Production Deployment
Methodologies & Practices:	Solution Architecture, Agile Development, Requirements Analysis, Technical Documentation, CI/CD Workflows

PROFESSIONAL EXPERIENCE

Automation Analyst

May 2025 – Oct 2026

Dentcare Dental Lab Pvt. Ltd. | Kerala, India

- Analyzed manual business processes across departments and designed scalable automation solutions to improve operational efficiency and reduce manual effort.
- Designed, developed, and deployed **production-grade internal applications, automation bots, and workflow solutions** using Python, Django, Selenium, Power Automate, and Microsoft SQL Server.
- Architected and integrated **RESTful APIs** to enable secure communication between internal applications, databases, and third-party systems.
- Led the **complete solution lifecycle**, including business analysis, solution design, development, testing, deployment, documentation, and continuous improvement.
- Built **automated reporting and data processing solutions** that enhanced operational visibility and supported data-driven business decision-making.
- Managed production deployments and maintained automation systems hosted on **virtual machines**, ensuring reliability, scalability, and high availability.
- Collaborated with business stakeholders to translate operational requirements into practical automation solutions that delivered measurable business value.

Python Full Stack Development Intern

Aug 2023 – Feb 2024

Luminar Technolab, Kochi | Kerala, India

- Built and deployed **full stack web applications** using Django, RESTful APIs, and SQL databases as part of an intensive development internship.
- Developed production-ready projects integrating **HTML5, CSS3, and JavaScript frontends** with Django backend services and relational database systems.
- Practiced **Git-based version control**, code review workflows, and collaborative development methodologies in a professional training environment.

KEY PROJECTS

Intra-Oral Scan Automation & Analysis System

Tech Stack: Python, Django, Selenium, Watchdog, Microsoft SQL Server, Waitress

- Designed and implemented an **end-to-end automation system** for downloading, organizing, processing, and analyzing intra-oral scan cases from a cloud-based platform.
- Automated scan retrieval using **Selenium**, eliminating manual downloads and significantly reducing daily operational effort.
- Developed an **intelligent folder management system** that automatically creates and maintains a structured directory hierarchy for case registration and file management.
- Built data extraction modules to process **PDF, JSON, and HTML** files, transforming unstructured information into standardized records stored in Microsoft SQL Server.
- Developed a **centralized Django application** for displaying processed scan information, enabling faster case registration and improved operational visibility.
- Designed the workflow to seamlessly integrate automated downloads, structured file organization, data extraction, and case registration into a **single streamlined process**.
- Reduced case registration time from **15 minutes to under 3 minutes** per scan, improving processing efficiency by approximately 80%.

EasyApply — AI Job Assistant

Tech Stack: Next.js, FastAPI, Python, PostgreSQL, OpenAI API, Gmail API

- Built an **AI-powered job application platform** that extracts job requirements from screenshots using OCR and LLMs, automating the entire application workflow.
- Developed an intelligent pipeline using **OpenAI API** to generate tailored cover letters and cold emails matched to the candidate's CV profile and job requirements.
- Implemented **Vision OCR** capabilities to extract and parse job posting details from uploaded screenshots, eliminating manual data entry.
- Built a **Next.js frontend** with App Router and Tailwind CSS for a responsive, single-click application experience.
- Integrated **Gmail API** to dispatch generated cover letters and cold emails directly to recruiters, enabling a fully automated 1-click job application workflow.
- Designed a **FastAPI backend** with PostgreSQL for secure data storage, user profile management, and efficient API communication.

EDUCATION

Bachelor of Computer Applications (BCA)

2020 – 2023

Mar Augusthinose College, Ramapuram — Mahatma Gandhi University, Kerala

Higher Secondary Education (Computer Science)

2018 – 2020

St. Augustine's Higher Secondary School, Karimkunnam

PROFESSIONAL CERTIFICATIONS

Python Web Development Expert

National Council for Technology and Training (NACTET)

- Certified in Python web development, validating expertise in application architecture, backend development, database integration, and deployment best practices.

Leverage AI Tools and Resources for Your Business

Microsoft

- Gained proficiency in leveraging AI-powered tools and technologies to enhance productivity, streamline workflows, and drive intelligent automation in professional environments.

Front-End Development

Professional Certification

- Validated proficiency in responsive web development using HTML5, CSS3, JavaScript, and modern UI/UX design principles.
